LEVEL 1

An Advanced Intensive Experiential Workshop

Trained by

Ronald Holt, Director of Flower of Life Research Institute (FOLR)- USA

Lyssa Royal Holt, FOLR Education Director

(This intensive retreat will be given in English with Italian translation)

In the popular *Flower of Life Workshop*, the importance of Sacred Geometry is explored and a powerful *17-Breath MerKaBa Meditation* tool is given to participants. But what happens when we return home from a Flower of Life Workshop? How do we apply those amazing teachings into our lives? And furthermore, how can we take those teachings to the next level of our personal evolution?

The Seed of Life Workshop is an advanced Sacred Geometry workshop that is not just a left-brained teaching of geometry. This workshop will provide both an intellectual and intuitive understanding of Sacred Geometry and apply it to the human consciousness. It picks up where the Flower of Life Workshop leaves off (with all original material from FOL director Ronald Holt and Education Director Lyssa Royal Holt) and provides participants with a tangible understanding of themselves in relationship to the Universe, and how they can evolve through the conscious use of sacred geometric principles in their lives. The result? Participants will be given tools to discover their True Self and through the choices they make, surrender the illusion and distraction in their lives that stops them from living their full potential.

"This is the most powerful, expansive workshop I have ever attended ... "

- Debbi Pettis, (USA) Flower of Life Facilitator

Through a powerful combination of lecture, meditation, and profound experiential exercises, participants will tangibly feel their connection to the Universe through a deep process of integration on the physical, emotional, mental, and spiritual levels of self. No participant will be left untouched, and each will leave the retreat with tools that will serve them for a lifetime.
